

Figure 2. Kaplan-Meier survival curves for OS by treatment arm.

HR = 0.72 (95% CI 0.58-0.89), $p = 0.003$, $N = 480$.

Median OS: 19.6 months (experimental) vs 14.2 months (control).

Schoenfeld residual test $p = 0.42$ (no violation of PH assumption).
